Description
+ The 2019 Vauxhall Grandland X Turbo Tech Line Nav is a practical SUV designed for everyday driving. This model is powered by a 1.2 litre petrol engine that meets Euro 6 emission standards, ensuring it remains compliant with current environmental regulations. As a Tech Line Nav trim, it comes equipped with the Navi 5.0 Intellilink touchscreen navigation and infotainment system, which supports Android Auto, Apple CarPlay, and Bluetooth connectivity. The vehicle also includes the Sight and Light Pack, featuring automatic headlights, and electronic climate control with air conditioning for cabin comfort. Manoeuvring is made easier with the Park and Go Pack One, which provides both front and rear parking sensors, while the side blind spot alert system adds an extra layer of awareness on the road.
+ This vehicle offers several practical advantages that make it a sensible choice for drivers seeking efficiency and utility. It benefits from low CO2 emissions, which can help reduce running costs, and it sits in a low insurance group, making it an economical option to insure. Beyond its running costs, the Grandland X is designed with versatility in mind, offering a large boot space that provides ample room for luggage, shopping, or equipment. These combined features make it a well-rounded vehicle that balances modern technology and driver assistance systems with the day-to-day requirements of a busy lifestyle.
